A Munich, Germany

About Me

Highly motivated and enthusiastic frontend developer with over a year of professional experience and a proven track record of delivering high-quality web development solutions. Skilled in HTML, Bootstrap, React Js, and UI/UX design, I have the ability to translate complex requirements into intuitive and effective user interfaces.

My passion for staying up-to-date with the latest industry trends and techniques has led me to continuously enhance my skills and knowledge. I am now eager to bring my expertise to a dynamic and fast-paced environment as a frontend developer.

Work Experience

FRONTEND DEVELOPER | January - March 2022

Aptech Computer Education

Roles and responsibilities:

- Implemented responsive web design principles to ensure websites were optimized for viewing on various screen sizes and devices
- Stayed up-to-date with the latest web development technologies, trends, and tools to continually improve skills and deliver high-quality results
- Ensured cross-functional compatibility and consistency of design and development across websites and applications

BOOTSTRAP DESIGNER | April - July 2022

Aptech Computer Education

Roles and responsibilities:

- Worked with cross-functional teams to integrate front-end code with back-end systems, ensuring a seamless user experience.
- Customized Bootstrap's styles, layout, and components to meet the specific needs of clients.
- Designed and developed responsive, mobile-first websites using Bootstrap framework.

BOOTSTRAP DEVELOPER | July - August 2022

Aptech Computer Education

Roles and responsibilities:

- Analyzed client requirements and designed, coded, and tested responsive, mobile-first websites using Bootstrap framework.
- Optimized website performance and cross-browser compatibility through rigorous testing and debugging processes.

REACT DEVELOPER | September - November 2022

Aptech Computer Education

Roles and responsibilities:

- Built scalable, performant user interfaces using React, Redux, and other front-end technologies.
- Implemented responsive design principles to ensure a seamless user experience across multiple devices.
- Collaborated with cross-functional teams including designers, product managers, and back-end developers to deliver high-quality, end-to-end web applications.
